

# Table of Contents

## **Session T1A - Women in Engineering: Journeys to Success, Sponsored by the Alfred P. Sloan Foundation**

*Chair: Cynthia J. Atman, University of Pittsburgh*

<i>Women in Engineering: Journeys to Success</i> . . . . .	1
Susan Wood, Indira Nair and Catherine Coleman	
<i>Women in Engineering: Influencing Equity</i> . . . . .	2
Susan Wood and A.O. Fitzgerald	
<i>No Universal Constants: Journeys of Women in Engineering</i> . . . . .	3
Susan Ambrose, Barbara Lazarus and Indira Nair	
<i>Women in Engineering: A Personal Success Story</i> . . . . .	10
Catherine Coleman	

## **Session T1B - Featured Lecture: The Personal Software Process - A Tool for Education, Watts Humphrey Software Engineering Institute**

*Chair: Michael Smith, University of Calgary*

<i>The Personal Software Process</i> . . . . .	11
Watts S. Humphrey	

## **Session T1C - Software Applications 1**

*Chair: David G. Meyer, Purdue University*

<i>Speech Coding and Phoneme Classification Using MATLAB and NeuralWorks</i> . . . . .	12
Brett St. George, Ellen Wooten and Louiza Sellami	
<i>Using MATLAB in a Graduate Electrical Engineering Optimal Control Course</i> . . . . .	13
Asad Azemi and Edwin Engin Yaz	
<i>Electronics Lab Bench in a Laptop: Using Electronics Workbench to Enhance Learning in an Introductory Circuits Course</i> . . . . .	18
Edward Doering	
<i>Experience In Using Electronics Workbench</i> . . . . .	22
Muhammad H. Rashid	

## **Session T1D - NSF Coalition Experiences**

*Chair: Jeffrey E. Froyd, Rose-Hulman Institute of Technology*

<i>The NSF Foundation Coalition - Looking Toward the Future</i> . . . . .	23
Karen Frair, David Cordes, Mike Cronan, Don L. Evans and Jeffrey Froyd	
<i>Development of Electroscience Curriculum for Greenfield Coalition</i> . . . . .	28
Nizar Al-Holou	
<i>Faculty Collaboration &amp; Course Coordination In Geographically Dispersed Campuses</i> . . . . .	34
Dhushy Sathianathan	
<i>Projects that integrate engineering, physics, calculus, and English in the Arizona State University Foundation Coalition freshman program</i> . . . . .	38
Ron J. Roedel, Meredith Green, Jeanne Garland, Bruce Doak, Joan McCarter and Don L. Evans	

## **Session T1E - Teamwork 1: Experiences and Lessons**

*Chair: Edwin G. Jones, Iowa State University*

<i>A Team Centered Grading System Based Primarily On The Team's Performance</i> .....	43
Robert Martinazzi	
<i>Using Multimedia and Cooperative Learning In and Out of Class</i> .....	48
William M. Clark	
<i>Affinity Groups: A Framework for Developing Workforce Skills</i> .....	53
Ann Gates, Connie Kubo Della-Piana and Andrew Bernat	
<i>Academic Excellence by the Telemark Model of Cooperative Learning</i> .....	57
Trond Clausen	

## **Session T1F - Recruitment & Retention 1: Who Succeeds?**

*Chair: Janet Rutledge, National Science Foundation*

<i>Retention: Are Students Good Predictors?</i> .....	62
Mary R. Anderson-Rowland	
<i>Who Does Not Succeed in Engineering at the University of Cape Town? What Can One Tell From the Retention Rate?</i> .....	71
Jeff Jawitz and Leanne Scott	
<i>The Effectiveness of Freshman Recruiting Strategies: An Analysis at the University of Wisconsin-Madison</i> .....	76
Donald Woolston, Eman Zaki and Charles J. Winter	
<i>"Live And Learn" Program For Recruitment/Retention</i> .....	80
Wils Cooley and Migri Prucz	

## **Session T1G - Assessment of Learning 1: Problem Solving and Portfolios**

*Chair: P. David Fisher, Michigan State University*

<i>A Method for Teaching Problem Assessment</i> .....	83
Julie Ann Stuart	
<i>Testing a Problem-Solving Paradigm</i> .....	88
Wallace Venable	
<i>Portfolio Assessment in Aerodynamics</i> .....	91
Nikos Mourtos	
<i>Transformation: From Teacher-Centered to Student-Centered Engineering Education</i> .....	95
George D. Catalano and Karen C. Catalano	

## **Session T1H - Teaching & Learning Models**

*Chair: Dan Moore, Rose-Hulman Institute of Technology*

<i>Supplemental Instruction Benefits Students in an Introductory Engineering Course</i> .....	101
Thomas Webster and Kay C Dee	
<i>A Model for Implementing Supplemental Instruction in Engineering</i> .....	109
Rose Marra and Thomas A. Litzinger	
<i>A learning model that develops students' active learning and reflective practices</i> .....	116
Elizabeth Long Haslam	
<i>Outcomes Based Engineering Education I: Theory and Practice in the Derivation of "Outcomes" A European Historical Perspective</i> .....	121
John Heywood	

**Plenary 1 - The Future of Computing Technology, Raj Reddy, Carnegie Mellon University,  
Sponsored by the Duquesne Light Company**

*Chair: Gerald D. Holder, Dean of Engineering, University of Pittsburgh*

*The Future of Computing Technology* ..... 129  
Raj Reddy

**Session T2A - Successful Women in Engineering Programs, Sponsored by the Alfred P. Sloan  
Foundation**

*Chair: Susan Wood, Westinghouse Savannah River Company*

*Retaining Undergraduate Women in Science, Math, and Engineering: A Model Program* ..... 130  
Carol Muller and Mary L. Pavone  
*A Longitudinal Study of Undergraduate Women in Engineering & Science* ..... 134  
Suzanne G. Brainard and Linda Carlin  
*Sloan Foundation Initiatives at Purdue University: Longitudinal Results* ..... 144  
Emily Wadsworth  
*Changing Missions* ..... 149  
Debbie Niemeier, Jessica Utts, Karin Mack, Alan Laub and Peter Rock

**Session T2B - Personal Software Process**

*Chair: Mike Smith, University of Calgary*

*A Comprehensive, Integrated Three-Semester Software Engineering Sequence* ..... 150  
Donald Bagert  
*Adjusting the Instruction of the Personal Software Process to Improve Student Participation I* ..... 154  
Laurie Williams  
*Parachuting Software Engineering Practices into the Hostile Environment of 4 th Year Final Term* ..... 157  
Michael Smith  
*Integrating Personal Software Process (PSP) Across the Undergraduate Curriculum* ..... 162  
Massood Towhidnejad and Thomas Hilburn

**Session T2C - Preparing the Next Generation of Information Science Specialists in Collaboration  
with Industry**

*Chair: Doris Lidtke, Towson State University*

*Preparing the Next Generation of Information Specialists in Collaboration with Industry* ..... 169  
Doris Lidtke, Liz Kaufman and Michael C. Mulder

**Session T2D - Electrical and Computer Engineering Design 1**

*Chair: Chalmers F. Sechrist, Jr.*

*Teaching Design while Constructing a 100-Watt Audio Amplifier* ..... 170  
Joseph Joseph  
*An Automated Data Collection Exercise: Capacitance Position Sensor* ..... 173  
Paul Coyne  
*A Design Exercise for Electives in Control Systems* ..... 176  
M. Sami Fadali  
*Capstone Term Project for Control Systems Curriculum* ..... 180  
Laszlo M. Hideg

## **Session T2E - Conversations on Creating a Different Classroom Climate**

*Chair: Karl Smith, University of Minnesota*

<i>Conversations on creating a different classroom climate. . . . .</i>	<i>184</i>
<i>Karl Smith, Elizabeth A. Eschenbach, James Jones and Barbara A. Karanian</i>	

## **Session T2F - Assessment of Courses and Conferencing**

*Chair: Eric P. Soulsby, University of Connecticut*

<i>A Criteria-Based Course and Instructor Evaluation Systems: Recent Experiences in Development and Utilization . . . . .</i>	<i>185</i>
<i>David Meyer</i>	
<i>A Model for Peer and Student Involvement in Course Assessment. . . . .</i>	<i>193</i>
<i>Sheri Sheppard, Michelle Johnson and Larry Leifer</i>	
<i>A New, Studio-based, Multimedia Dynamic Systems Course: Does it really work? . . . . .</i>	<i>201</i>
<i>Mietek Glinkowski, Jason Hylan and Bradley Lister</i>	
<i>Electronic Conferencing in Undergraduate Engineering Classes . . . . .</i>	<i>207</i>
<i>Veronica Burrows</i>	

## **Session T2G - Teamwork 2: Successes and Comparisons**

*Chair: Eric A. Cheek, North Carolina A & T*

<i>Using Active Learning to Teach Technical and Non-Technical Skills in the Same Course . . . . .</i>	<i>211</i>
<i>Robert Martinazzi and Jerry Samples</i>	
<i>Student Work Groups/Teams: Current practices in an Engineering and Technology Curriculum Compared to Models Found in Team Development Literature . . . . .</i>	<i>214</i>
<i>Cliff Goodwin, Anna Campbell and Robert Wolter</i>	
<i>Cross-Functional Teaming in a Capstone Engineering Design Course. . . . .</i>	<i>215</i>
<i>P. David Fisher and Diane T. Rover</i>	
<i>What Do You Do When Your Students Want to Lead? . . . . .</i>	<i>220</i>
<i>Kenneth Bester, Terry Lee, Jill Roboski and Jim Richardson</i>	

## **Session T2H - Status and Issues in International Accreditation of Computer Science and Engineering Programs**

*Chair: Willis King, University of Houston*

<i>Status and Issues in International Accreditation of Computer Science and Engineering Programs . . . . .</i>	<i>225</i>
<i>Willis K. King</i>	

## **Session T3A - Model Asynchronous Learning Networks, Sponsored by the Alfred P. Sloan Foundation**

*Chair: Burks Oakley II, University of Illinois at Urbana-Champaign*

<i>An AS Engineering Degree Program via ALN . . . . .</i>	<i>227</i>
<i>John Sener and Merrily Stover</i>	
<i>Using Networked Tools to Enhance Student Success Rates in Large Classes . . . . .</i>	<i>233</i>
<i>Edwin Kashy, Michael Thoennessen, Y Tsai, Nancy E Davis and S. L. Wolfe</i>	
<i>An Innovative Approach to Asynchronous Learning using Mallard: Application of Java Applets in a Freshman Course. . . . .</i>	<i>238</i>
<i>Timothy Trick and Charles R. Graham</i>	
<i>Paradigms for On-Line Learning: A Case Study in the Design and Implementation of an Asynchronous Learning Networks (ALN) Course . . . . .</i>	<i>245</i>
<i>John Bourne, Eric McMaster, Jennifer Rieger and J. Olin Campbell</i>	
<i>Two Examples of Asynchronous Learning Programs for Professional Development . . . . .</i>	<i>256</i>
<i>Alan Stuart and Anderw W. Mayers</i>	

### **Session T3B - A Portfolio Potpourri**

*Chair: Barbara M. Olds, Colorado School of Mines*

<i>A Portfolio Potpourri</i> . . . . .	261
Barbara M. Olds, Marilyn Dyrud and Julie Sharp	
<i>The Use of Portfolios for Outcomes Assessment.</i> . . . . .	262
Barbara M. Olds	
<i>Portfolio Assessment for Promotion and Tenure: Three Assessment Challenges</i> . . . . .	267
Marilyn Dyrud	
<i>Using Portfolios in the Classroom</i> . . . . .	272
Julie Sharp	

### **Session T3C - Computer Science and Engineering Curriculum 2**

*Chair: Joe Turner, Clemson University*

<i>An Inverted Computing Curriculum: Preparing Graduates to Build Quality Systems.</i> . . . . .	280
Anita J LaSalle	
<i>Introducing Computer Science Fundamentals Before Programming.</i> . . . . .	285
Russell L. Shackelford and Richard J. LeBlanc, Jr.	
<i>TQM and Collaborative Learning: A Perfect Match</i> . . . . .	290
Linda Null	
<i>Using the Web to Enhance Education.</i> . . . . .	295
A. Joe Turner	
<i>Study of a Group Project Model in Computer Science</i> . . . . .	299
Craig E. Wills and David Finkel	

### **Session T3D - Manufacturing/Industry Collaborations 1**

*Chair: Bopaya Bidanda, University of Pittsburgh*

<i>Issues When Using Company Sponsored Projects to Provide a Design Experience for Students</i> . . . . .	304
Don Dekker	
<i>An Approach to Developing Partnerships with Industry</i> . . . . .	307
Jeffrey Honchell and Michael S. Munoz	
<i>Industry-Sponsored Student Design Teams in Engineering at The University of Tennessee</i> . . . . .	310
Robert M. Counce, W. Joe Bales, Harold R. Dodds, Andrew J. Edmondson, Robert E. Ford, Dave R. Raman, Thomas E. Shannon, Frank H. Speckhart, Fred D. Tompkins and Ronald E. Yoder	
<i>Innovative Instructional Mentoring Through Partnerships Across the Curriculum.</i> . . . . .	316
Julie Ann Stuart, Shahrukh Irani and Robert Lundquist	
<i>An Experience on Industry-University Collaborative Research.</i> . . . . .	317
Karim J. Nasr and Bashar AbdulNour	

### **Session T3E - Distance Learning 1**

*Chair: Manuel Castro Gil, UNED (Madrid, Spain)*

<i>Using Computer Assisted Collaborative Learning To Improve Distance Education.</i> . . . . .	321
Nixon Pendergrass and Gregory Sun	
<i>Interactive Television and PC Multimedia Distance Learning Applications in Corporate Training.</i> . . . . .	325
Steve Prough, Lalita Rao, John Samota and Kevin Moore	
<i>Innovations in large-scale supported distance teaching: transformation for the Internet, not just translation.</i> . . . . .	332
Linda Carswell, Marian Petre, Blaine Price and Pete Thomas	
<i>Innovations in a Global Distance Education Program.</i> . . . . .	339
Kim Randall and Eugene G. McGuire	
<i>Distance Education - Sources and Control of Air Pollution.</i> . . . . .	343
Robert J. Heinsohn	

### **Session T3F - Topics in Design 1: Connections**

*Chair: Don Bagert, Texas Tech University*

<i>Using Student-Centered Multimedia Programs to teach Design and Communications. . . . .</i>	<i>348</i>
<i>Richard Culver and Sharon B. Fellows</i>	
<i>Problem Based Learning via Open Ended Projects in Carnegie Mellon University's Chemical Engineering Undergraduate Laboratory. . . . .</i>	<i>350</i>
<i>Matthew J. Cline and Gary J. Powers</i>	
<i>Capstone Design Course in Chemical Engineering . . . . .</i>	<i>355</i>
<i>Gennaro J. Maffia</i>	
<i>Statewide Endorsement Of Design In Washington . . . . .</i>	<i>363</i>
<i>Richard W. Crain, Denny C. Davis, Michael S. Trevisan, Dale E. Calkins and Kenneth L. Gentili</i>	
<i>Design and Prototype of Interactive Fluid Dynamics Exhibits for the Carnegie Science Center: An Undergraduate Team Project Experience . . . . .</i>	<i>366</i>
<i>Susan Finger and Cristina H. Amon</i>	

### **Session T3G - Engineering for Non-majors**

*Chair: Lad Nagurney, University of Hartford*

<i>Introductory Physics: An Attempt to Change Attitudes . . . . .</i>	<i>371</i>
<i>Edward Thomas, Henry S. Valk and James Whitenton</i>	
<i>Integrating Interactive Digital Video Techniques in an Introductory Physics Course for Non-Science Majors . . . . .</i>	<i>372</i>
<i>Teresa L. Hein and Dean A. Zollman</i>	
<i>Technology and You: An Engineering Service Course for Non-Engineering Students . . . . .</i>	<i>379</i>
<i>Matthew N.O. Sadiku and Robert Yantorno</i>	
<i>A Senior-Level Engineering Course that Meets General Education Requirements . . . . .</i>	<i>383</i>
<i>Kathleen Kramer</i>	
<i>Integrating Engineering and Technology into a Core Curriculum. . . . .</i>	<i>387</i>
<i>Brian P. Butz</i>	

### **Session T3H - K-12 Outreach 1: Making Connections**

*Chair: Kevin D. Taylor, Purdue University*

<i>Selected Outreach Programs at the National Center for Supercomputing Applications . . . . .</i>	<i>391</i>
<i>Mary Bea Walker and John Ziebarth</i>	
<i>K12 and the World Wide Web. . . . .</i>	<i>398</i>
<i>Susan A Mengel</i>	
<i>Connection Technology. . . . .</i>	<i>404</i>
<i>Karl Stevens and Sharon Schlossberg</i>	
<i>Meeting Washington State Educational Goals: University of Washington's ECSEL Design Too Workshop . . . . .</i>	<i>409</i>
<i>Remie Calalang, Robin S. Adams and James L. Fridley</i>	
<i>An Engineering Design Course for Future Educators . . . . .</i>	<i>415</i>
<i>Jane Enterline</i>	

### **Session T4A - Evaluation of Asynchronous Learning Networks, Sponsored by the Alfred P. Sloan Foundation**

*Chair: John R. Bourne, Vanderbilt University*

<i>Student Use Of and Attitudes about On-Campus ALN . . . . .</i>	<i>416</i>
<i>John Ory and Cheryl Bullock</i>	
<i>Evaluating the Importance of Collaborative Learning in ALN's . . . . .</i>	<i>432</i>
<i>Starr Roxanne Hiltz and Raquel Benbunan-Fich</i>	

<i>Evaluating an Asynchronous Graduate Degree Program</i> .....	437
Gregory Hislop	
<i>Evaluating Costs and Benefits of Distributed Learning</i> .....	441
J. Olin Campbell	

### **Session T4B - Mechanics and Structures 1**

*Chair: William Clark, University of Pittsburgh*

<i>An Innovative Integrated Learning Laboratory Environment</i> .....	445
Maurice Walworth, Ajay Mahajan and David McDonald	
<i>Development of a Teaching Tool: the Texaco Energy Systems Laboratory at Penn State</i> .....	450
Horacio Perez-Blanco and Bor-Bin Tsai	
<i>Application Of Data Acquisition Systems In The Undergraduate Laboratories Of Mechanical Engineering And Engineering Science</i> .....	454
Horacio V. Estrada and Rhyn H. Kim	
<i>Integration of Seamless Design, Analysis and Manufacturing Concepts into Undergraduate Mechanics Courses</i> .....	461
Jack Beuth	
<i>Engineering Graphics in an Integrated Environment</i> .....	462
Bob Bolton and James R. Morgan	

### **Session T4C - Graduate Software Engineering Education**

*Chair: Jorge Diaz-Herrera, Monmouth University*

<i>Software Engineering: Graduate Education and Research Issues</i> .....	467
Jorge L. Diaz-Herrera, Al Davis, Richard Fairley, David Garlan and Everaldo E. Mills	

### **Session T4D - Ethics in Computer Science and Engineering**

*Chair: Phil Prins, Seattle Pacific University*

<i>Case Study Resources for an Ethics and Computing Course</i> .....	469
Kevin Bowyer	
<i>Exploring the Ethical, legal and Social Aspects of the Computing Discipline</i> .....	474
Jeanne Murtagh and Edward Sobiesk	
<i>Ethics and Social Issues in Computer Science</i> .....	478
Elaine Weltz	
<i>A Conceptual and Pedagogical Framework for Teaching Ethics and Social Impact in Computer Science</i> .....	479
C. Dianne Martin and Chuck W. Huff	
<i>The Professionalization of Software Engineering and its significance for Ethics Education</i> .....	484
Don Gotterbarn	

### **Session T4E - Electrical and Computer Engineering Curriculum Innovations 1**

*Chair: David G. Meyer, Purdue University*

<i>Introductory Analog Electronics Course Incorporating In-Class Team Design Problems and Multi-team Design Based Laboratories</i> .....	490
Dan Moore	
<i>Designing an Experiment A Case Study in Student Learning</i> .....	494
P. David Fisher and Rebecca L. Gregg	
<i>Using Ethics Problems to Teach The Design Method</i> .....	499
John Pearce	
<i>Consolidating the Capstone Design Course Responsibility in Electrical Engineering at Texas A &amp; M University</i> .....	502
T. J. Talley	
<i>A New Design-Oriented Laboratory for the Introductory Circuits Core Course at Penn State University</i> .....	506
Theresa S. Mayer, James R. Medunick, Chunyu Zhang and Thomas N. Jackson	

## **Session T4F - K-12 Outreach 2:Sustaining Interest**

*Chair: Lad Nagurney, University of Hartford*

<i>Camp REACH: An Engineering Summer Camp for Middle School Girls</i> .....	511
Chrysanthe Demetry and Denise Nicoletti	
<i>Teaching and Learning in an Era of Equality - An Engineering Program for Middle School Girls</i> .....	512
Stephanie L. Blaisdell, Rebecca J. Dozier and Mary R. Anderson-Rowland	
<i>The Water Table: a fluid exhibit for the Carnegie Science Center.</i> .....	515
Luis J. Oms, Edgardo Torres and Cristina H. Amon	
<i>Fostering Educational Innovation at the Level of Individual Professionals in K-12: A Case Study</i> .....	521
Carol Muller and William S Carlsen	
<i>Engineering Recruitment and Retention: A Successful Bridge.</i> .....	526
Mary R. Anderson-Rowland, Maria A. Reyes and Mary Ann McCartney	

## **Session T4G - Innovations in Engineering Technology Education**

*Chair: Jerry Sample, University of Pittsburgh - Johnstown*

<i>Development of a Technical Sales Course in the Engineering Technology Curriculum</i> .....	531
Ronald Rockland	
<i>On-Site Delivery of BS in Electro-Mechanical Engineering Technology - A Collaborative Effort Between Penn State and Sony Electronics.</i> .....	534
Ronald Land	
<i>Development and Implementation of a Course in Instrumentation and Data Acquisition for the Penn State Baccalaureate Degree Electro-mechanical Engineering Technology Program.</i> .....	538
Peter J. Shull and Sohail Anwar	
<i>A Hands-On Approach To Senior Design Class For Engineering Technology</i> .....	542
Ratan Kumar and Perry McNeill	
<i>Advanced Technological Education in Semiconductor Manufacturing: Preparing for the 21st Century</i> .....	546
David Hata	

## **Session T4H - Assessment of Learning 2: Methods and Models**

*Chair: Mary Besterfield-Sacre, University of Texas at El Paso*

<i>Variations of the Group Quiz That Promote Collaborative Learning</i> .....	552
Charles Yokomoto and Roger Ware	
<i>Relationship of Homework Complexity to Quiz Scores</i> .....	558
Edward Thomas and Robert Hume	
<i>Problem-based Engineering Design and Assessment in a Digital Systems Program.</i> .....	562
Doug Maskell	
<i>Outcomes Based Engineering Education II: The Merits Of Continuous Programme Evaluation</i> .....	567
John Heywood	
<i>Evaluating of Creative Thinking of Students and Creativity Development at Southeast University, China</i> .....	576
Li Jiazeng, Li Yanbao, Chen Yi and Wei Wenxian	

## **Session T5A - Engineering Educator Entertainers**

*Chair: Darrell L. Vines and Alisha Waller, Dimensions Consulting*

<i>For Entertainers at FIE.</i> .....	580
Darrell L. Vines	

## **Session F1A - Featured Lecture: Computers Are Not Omnipotent, David Harel, Weizmann Institute of Science**

*Chair: Stephen B. Seidman, Colorado State University*

<i>Computers are not Omnipotent</i> . . . . .	581
David Harel	

**Session F1B - Distance Learning 2**

*Chair: Nixon A. Pendergrass, University of Massachusetts - Dartmouth*

<i>Distance Delivery and Laboratory Courses</i> . . . . .	582
R. Gregg Bruce	
<i>PC-Based Video Conferencing: Guidelines for Opening a Remote Section of a Course</i> . . . . .	585
Allen Stix, Jean Coppola and Susan Merritt	
<i>Challenges of Delivering Undergraduate Engineering Programs to Place-Bound Members of the Technical Work Force</i> . . . . .	588
Edwin C. Jones, Jr., Lee Van Brocklin and Richard Horton	
<i>Distance Education: On the Use of Videoconferencing at the University of Pittsburgh</i> . . . . .	593
Joanne Claus and Kim LaScola Needy	

**Session F1C - Electrical and Computer Engineering Curriculum Innovations 2**

*Chair: Edward R. Doering, Rose-Hulman Institute of Technology*

<i>A Project-Oriented Course In Probability And Statistics For Undergraduate Electrical Engineering Students</i> . . . . .	598
Maurice Aburdene and Richard J. Kozick	
<i>Implementing a Complete Control Curriculum in the Classroom</i> . . . . .	604
Peter Schuyler	
<i>Development of an Undergraduate Robotics Course</i> . . . . .	610
Rachid Manseur	
<i>Robots Enhance Engineering Education</i> . . . . .	613
Darrell L. Vines, David J. Mehrl and Micheal E. Parten	

**Session F1D - Centers for Education**

*Chair: Jack V. Matson, Penn State University*

<i>Start up of the Leonhard Center for Enhancement of Engineering Education</i> . . . . .	619
Jack V. Matson	

**Session F1E - Recruitment and Retention 2 - Women and Minorities**

*Chair: Alice E. Smith, University of Pittsburgh*

<i>The Potential of Industrial "E-Mentoring" as a Retention Strategy for Women in Science and Engineering</i> . . . . .	622
Carol Muller	
<i>Minority Women in Engineering: A Performance Review</i> . . . . .	627
Pamela Leigh Mack	
<i>OMED: Educational Services - Raising Expectations and Performance</i> . . . . .	628
Gavin Samms	
<i>Females Involved from Regional Schools in Technology and Engineering (FIRSTE) Program</i> . . . . .	629
Joan Begolly and Tracie Brockhoff	

**Session F1F - Topics in Design 2: Teaching and Observing**

*Chair: Hamid Khan, East Carolina University*

<i>Results of Client Based Freshman Design Projects</i> . . . . .	634
Melinda Piket-May and James P. Avery	
<i>Reinventing Invention and Design</i> . . . . .	638
Larry G. Richards, Micheal E. Gorman, William T. Scherer and Matthew M. Mehalik	
<i>Developing and Conducting an Industry Based Capstone Design Course</i> . . . . .	644
Clayton Ruud and Velma J. Deleveaux	

<i>Using a Hypertext Instructional Design Methodology in Engineering Education</i> . . . . .	648
Susan A Mengel, William J. Adams and Marion Hagler	

**Session F1G - Laboratory Innovations**

*Chair: J. Sherwood Charlton, University of Arkansas*

<i>An Interdisciplinary Approach to Teaching and Learning</i> . . . . .	653
Anthony Muscat, Emily Allen, Evan D.H. Green and Linda S. Vanasupa	
<i>An Integrated Engineering Systems and Controls Laboratory</i> . . . . .	659
Peter M. Young	
<i>A Student Personal Positioning System Approach to the Analysis, Design and Fabrication of Actual Control Systems</i> . . . . .	666
Stephen Konyk, Jr.	
<i>Development Of Computer Based Instruction In A Control Systems Curriculum</i> . . . . .	671
Sandra A. Yost, Nizar Al-Holou and Laszlo M. Hideg	

**Session F1H - Alternative Assessment: The Georgia Tech Experiments**

*Chair: Wendy Newstetter, Georgia Institute of Technology*

<i>A Developmental Approach to Assessing Design Skills and Knowledge</i> . . . . .	676
Wendy C. Newstetter and Sabir Khan	
<i>Learning Essays and the Reflectiver Learner: Supporting Assessment In Engineering Design Education</i> . . . . .	681
Jennifer Turns	
<i>Assessment and Evaluation in Problem Based Learning</i> . . . . .	689
W. Michael McCracken and Robert Waters	
<i>Assessment of Engineering Design by Design</i> . . . . .	694
Janet Allen	

**Session F1I - Poster Session 1**

*Chair: Richard Porter, North Carolina State University*

<i>Experiences Teaching CSI via the Net</i> . . . . .	695
Aaron Gordon	
<i>The Mobile Classroom Project</i> . . . . .	696
Robert Cook	
<i>Incorporating Writing into Software Engineering</i> . . . . .	697
Robin Murphy	
<i>Shared Virtual Spaces and Its Application in Teaching and Learning Environment</i> . . . . .	698
Javed Alam and Loretta Herr	
<i>A Software Engineering-Oriented Concepts of Programming Languages Course</i> . . . . .	699
Donald Bagert	
<i>The Birth of Information Technology Degrees in New Zealand: The Design, Structure, Implementation, Assessment Methods and Moderation of the "Bachelor of Information Technology Degree" at The Waikato Polytechnic</i> . . . . .	700
Chris Burrell	
<i>A Graphical Simulation Tool For Teaching Microprocessors Architecture And Assembly Language</i> . . . . .	701
Juan M. Ramirez, J. Antonio Navarro, Vidal Gallardo and David Baez-Lopez	
<i>LCD: A Learner Centered Approach to Developing Educational Software</i> . . . . .	702
Mark Guzdial, W. Michael McCracken and Allison Elliott	
<i>The WVU/WVUIT Distributed Laboratory for Computer-Based Instructional Technologies (DLCIT)</i> . . . . .	703
Hany H. Ammar and Stewart Tewksbury	
<i>Modular Curriculum: An Alternative Approach to Engineering Education</i> . . . . .	704
Massoud Moussavi	
<i>Lean Thinking Put Into Action</i> . . . . .	705
Roderick Johnson	

<i>Awakening the Tinkerer Within: Re-Introducing First Year Students to Hardware for Motivation</i> . . . . .	706
Jennifer T. Bernhard	
<i>What Some Thoughtful Senior Engineering Students Say About Engineering Education</i> . . . . .	707
Audeen Fentiman	
<i>A Practical Course on Real-Time Digital Signal Processing Using C50.</i> . . . . .	708
Ana Maria Tome and Jose Vieira	
<i>CBL: Assessing the Student Learning Experience</i> . . . . .	709
Geneen Stubbs and Mike Watkins	
<i>Team Design as an Alternative to Conventional Laboratory Experiments in Physics</i>	
David P. Wick	

**Plenary 2 - What We Know About Learning, Herbert A. Simon, Carnegie Mellon University, sponsored by the Lockheed Martin Corporation**

*Chair: Cynthia J. Atman, University of Pittsburgh*

<i>What We Know About Learning</i> . . . . .	710
Herbert A. Simon	

**Session F2A - NSF Project Showcase 1: An Overview, Sponsored by National Science Foundation**

*Chair: Sue Kemnitzer, Harry Hedges, and Peggie Weeks, National Science Foundation*

<i>Multimedia Systems and Intelligent Tutors for Teaching Design for Manufacturing</i> . . . . .	711
Beverly Woolf, Corrado Poli and Ian Grosse	
<i>Incremental Improvement: An Essential Component of Engineering Design</i> . . . . .	717
Mike Mavrovouniotis	
<i>Integrating Multiple Disciplines in an Environmental Engineering Curriculum with Field Exercises</i> . . . . .	720
Gary Litton	
<i>Science Skills for Information Technology</i> . . . . .	721
Doug Brown	
<i>A look back - Undergraduate Computer Science education: A new curriculum philosophy and overview.</i> . . . . .	722
Jane C. Prey, John C. Knight and A. Wm. Wulf	
<i>A Collaborative Learning Environment for Intellectual Teamwork Across the Curriculum</i> . . . . .	728
Edwin Rogers and Cheryl Geisler	
<i>A Design-based Introductory Computer Science Course</i> . . . . .	729
Matthias Felleisen	
<i>The Capstone Project: An Integrated Approach to Learning</i> . . . . .	733
Benjamin White, Jr.	
<i>Curriculum Development at the New York Center for Biomedical.</i> . . . . .	734
Steve Cowin and Sheldon Weinbaum	
<i>BA 3100 - Technology-Based Entrepreneurship: An Integrated Approach to Engineering and Business Education</i> . . . . .	738
Miguel A. Torres, Jorge I. Velez-Arocho and Jaime A. Pabon	
<i>The Engine in Engineering - Development of Thermal/Fluids Web Based Applications</i> . . . . .	744
Allan Kirkpatrick, Amy Lee and Bryan Willson	
<i>A Multimedia Based Laboratory Course for Environmental Engineering Fundamentals and Process Design</i> . . . . .	748
Lynn E. Katz, Lenly J. Weathers, Will Manion, Ronald Kozlowski, Kevin Austin and Mike Scott	

**Session F2B - Excellence in Computer Science Education**

*Chair: Bruce Barnes*

<i>Towards Excellence in Computer Science and Engineering Education</i> . . . . .	749
Bruce Barnes and Gerald L. Engel	

**Session F2C - The Role of Software Engineering in Undergraduate Education**

*Chair: Fernando Naveda, Rochester Institute of Technology*

<i>The Role of Software Engineering in Undergraduate Education</i> . . . . .	750
J Fernando Naveda, Michael J. Lutz, Thomas B. Hillburn, Linda M. Northrup and Michael C. Stinson	

**Session F2D - Electrical and Computer Engineering Design 2**

*Chair: Susan M. Lord, University of San Diego*

<i>In Process Development of an Advanced Undergraduate Communications Laboratory</i> . . . . .	751
Michael S. Munoz and Susan Garrod	
<i>Design of a Laboratory Experiment on Optical Fibers and Applications in Fiber Sensors</i> . . . . .	756
Ryan Sherry and Susan M. Lord	
<i>Wireless Circuit and System Design: A New Undergraduate Laboratory</i> . . . . .	757
Paul G. Fikkema, Lawrence P. Dunleavy, Horace C. Gordon, Rudolph E. Henning and Thomas M. Weller	
<i>Teaching to Design with Standard Components</i> . . . . .	761
Joseph Joseph	

**Session F2E - Reflections on Distance Learning**

*Chair: Elizabeth Eschenbach, Humboldt State University*

<i>Reflections on Distance Learning</i> . . . . .	764
Elizabeth A. Eschenbach, Wallace Venable and Larry G. Richards	

**Session F2F - Topics in Design 3: Competitions and Experiments**

*Chair: Dan Budny, Purdue University*

<i>Implementing a Multidisciplinary System Design and Engineering Course Using Solar Splash '97</i> . . . . .	765
John Chen, Esther A. Hughes, Shih-Liang Wang and Ward J. Collis	
<i>Multidisciplinary Engineering Laboratory Experiments</i> . . . . .	769
Robert King, Terry Parker, Tom Grover, Joan Gosink and Nigel Middleton	
<i>Using a State-Wide High School Robotics Competition as the basis for a Capstone Design Experience in Electrical Engineering</i> . . . . .	775
T. J. Talley	
<i>Innovative Student Solutions to a Robotics Design Exercise</i> . . . . .	778
Stuart Wilkinson	

**Session F2G - Understanding Our Students: Styles, Types and Attitudes**

*Chair: Ralph E. Flori, University of Missouri - Rolla*

<i>Students' Psychological Type and Success in Different Engineering Programs</i> . . . . .	781
Peter Rosati	
<i>Success in Low-Level and High-Level Mathematics Courses in Undergraduate Engineering College as a Correlate to Individual Learning Style</i> . . . . .	785
Kathryn C. Wetzel and Kathleen M. Harmeyer	
<i>A Cross Institutional Comparison of Incoming Freshman Engineering Attitudes</i> . . . . .	786
Mary Besterfield-Sacre, Cynthia Atman and Larry J. Shuman	
<i>Managing Controversial and Sensitive Classroom Issues</i> . . . . .	787
Barbara A. Karanian	

**Session F2H - Technology As The New Liberal Education**

*Chair: Edward Parish, Worcester Polytechnic Institute*

<i>A Liberal Education for the 2000's</i> . . . . .	788
Lance E. Schachterle	
<i>Engineering Education and The Ideals of Liberal Education</i> . . . . .	791
Heinz C. Luegenbiehl	

<i>System Dynamics as a Technology of Learning for New Liberal Education</i> . . . . .	792
Khalid Saeed	
<i>Why the Traditional Liberal Arts are Still Relevant to Engineering Education</i> . . . . .	793
Paul T. Durbin	

## **Session F2I - Poster Session 2**

*Chair: Ronald Hoelzeman, University of Pittsburgh*

<i>Process-centered Environments for Web-Based Instructional Modules</i> . . . . .	794
Hany H. Ammar, Abdul Mobeen Mohammed and Osama Abdalla	
<i>An Economic Lab Design for Hands-on Education in Microelectronics Processing</i> . . . . .	795
Linda S. Vanasupa	
<i>Learning Interactively: Electromagnetics Case Study</i> . . . . .	796
Melinda Piket-May	
<i>Why Johnny Won't Read - Producing Readable Printed Matter</i> . . . . .	797
Thomas Schultz	
<i>Teaching/Learning Methods: From Personalized System of Instruction (PSI) in 1970s To Cooperative Method in 1990s. An educational evolution, necessity, or a fashion?</i> . . . . .	800
Massoud Moussavi	
<i>Student Empowerment By Course Structure</i> . . . . .	801
Laszlo M. Hideg	
<i>An Interactive Multimedia Platform for Telelearning</i> . . . . .	802
Voicu Groza, Dan Ionescu and Nicolas Georganas	
<i>Engineering Effective Intervention: Measuring Reaction, Learning, Behavior and Results</i> . . . . .	803
Hamid Khan	
<i>Multimedia Based Distance Education Through the Internet</i> . . . . .	804
Abhay Bakshi and Biswajit Das	
<i>Virtual Reality Semiconductor Laboratory</i> . . . . .	805
Biswajit Das, Brandon D. Schreiner and Paul B. Sines	
<i>Using Digital Video for Motion Analysis</i> . . . . .	806
Melissa Gross	
<i>ELITE - Engineering with Liberal and Technical Education Project Status Report - Evaluation, Seminars, and Advising</i> . . . . .	807
Jeff Goldberg, S. Sen, J. Higle, R. Ferrell and J. Higle	
<i>IE Capstone Design Experience: From Theory to Practice</i> . . . . .	808
Roderick Johnson	
<i>An Integrated Curricula Between Master And Doctoral Engineering Programs</i> . . . . .	809
Abel Herrera	
<i>Using CyclePad - an "articulate" software laboratory - in Thermodynamics Education</i> . . . . .	810
Julie Baher	
<i>Computer-Based Interactive Tutorials for Electrical Engineering Laboratory Instruction</i> . . . . .	811
Stephen Titcomb	
<i>Adventures in Electrical Engineering: A Prototype Introductory Engineering Course</i>	
Jeffrey Schiano	
<i>Interchange Of Academic Credits Between Universities In The NAFTA Countries</i>	
Raul Herrera	

## **Session F3A - International Experiences**

*Chair: Cristina Amon, Carnegie Mellon University and Jayant Rajgopal, University of Pittsburgh*

<i>Managing Cultural Differences for Engineers</i> . . . . .	812
Halvard Nystrom	
<i>The Need to Prepare More South African Black Scholars for Engineering Studies</i> . . . . .	815
Nico Beute	

<i>The International Virtual Design Studio</i> . . . . .	821
Ronald Bucinell, Richard Kenyon, Abdulkadir Erden and Bulent E. Platin	
<i>Combining International Experience and Industrial Relevance in a Capstone Engineering Design Course</i> . . . . .	827
Jayant Rajgopal, Kim LaScola Needy and Jose S. Porter	
<i>Development of Non-Traditional Study Abroad Opportunities in Engineering: A Comprehensive Program for China</i> . . . . .	832
James Goodwin and Carol A. Goodwin	

**Session F3B - World Wide Web Applications 1**

*Chair: Keith Barker, University of Connecticut and Lisa Lancor, Southern Connecticut State University*

<i>Heterogeneous Information Resources and Asynchronous Workgroups: Creating a Focus on Information Discovery and Integration in Computer Science</i> . . . . .	833
Wendy Lawrence-Fowler and Richard Fowler	
<i>World Wide Web Approach to Teaching Microprocessors</i> . . . . .	838
Dukki Chung and Francis L. Merat	
<i>Development of Educational Tools: a Web-Oriented Approach</i> . . . . .	842
Denis Dion Jr., Antoine Escobar, Jacques Tremblay and Denis Laurendeau	
<i>Experiences in conducting web-based, paperless undergraduate software and hardware design courses</i> . . . . .	848
Jose L. Cruz-Rivera and Manuel A. Prez-Quiones	
<i>Delivering a Lab Course in a Web-Based Learning Environment</i> . . . . .	849
Robert McCartney, Bob Weiner and Karl R. Wurst	

**Session F3C - Software Engineering Education**

*Chair: Mike Lutz, Rochester Institute of Technology*

<i>Integrating Risk Management into an Undergraduate Software Engineering Course</i> . . . . .	856
James Collofello and Andrew K. Pinkerton	
<i>Using an Iconic Design Tool to Teach the Object-Oriented Paradigm</i> . . . . .	861
Donald Bagert and Ben Calloni	
<i>An Integrated Embedded Software Engineering Program and Practicum</i> . . . . .	862
Samuel L. Hazen and Stephen T. Frezza	
<i>Integrating Software Process in Computer Science Curriculum</i> . . . . .	867
Richard Upchurch and Judith E. Sims-Knight	
<i>A Software Engineering Curriculum Incorporating Formal Methods: A Progress Report</i> . . . . .	872
Ann Sobel	

**Session F3D - Electrical and Computer Engineering Curriculum Innovations 3**

*Chair: Bruce C. Wheeler, University of Illinois at Urbana-Champaign*

<i>American Electric Power's Project Probe - Enhancing Power Engineering Education Through Industrial-Academic Cooperation</i> . . . . .	873
David Bayless and Richard I. Pawliger	
<i>A Downsized, Laboratory-Intensive Curriculum in Electrical Engineering</i> . . . . .	878
Terry Martin and William D. Brown	
<i>Networked, Asynchronous Assessment of Ongoing Instruction</i> . . . . .	883
Charles Slivinsky	
<i>Melding Engineering into a Liberal Arts Tradition: A Unique Nine-Semester BS/BA Electrical Engineering Program</i> . . . . .	887
Thomas F. Schubert, Jr.	
<i>Experiences in Teaching DSP First in the ECE Curriculum</i> . . . . .	891
Mark Yoder, James H. McClellan and Ronald W. Schafer	

**Session F3E - Software Applications 2**

*Chair: Daniel J. Moore, Rose Hulman Institute of Technology*

<i>Developing A Multimedia Courseware In Structural Engineering</i> . . . . .	896
Abbas Aminmansour	
<i>LabVIEW as an Effective Enhancement to an Optoelectronics Laboratory Experiment</i> . . . . .	897
Ryan Sherry and Susan M. Lord	
<i>Curvefit &amp; Diode: Windows Graphing Applications</i> . . . . .	901
Glenn Kohne	
<i>Interfacing a Digital Oscilloscope to a Personal Computer using GPIB</i> . . . . .	904
Shamala Chickamenahalli and Aveion Hall	
<i>EDA Based Digital Design on Non-Residential Campuses</i> . . . . .	905
Richard Auletta	

**Session F3F - Assessment of Computer Based Learning**

*Chair: Emily L. Allen, San Jose State University*

<i>Measuring Effect of Computer Use on Student Learning</i> . . . . .	910
Michael Pavelich	
<i>Intelligent Learning Environments: Using Educational Technology To Assist Complex Problem Solving</i> . . . . .	911
Thad Crews	
<i>Running a Testbed for new Instructional Technology In Western Pennsylvania Schools</i> . . . . .	917
Mary Micco	
<i>What We Know About Technological Support for Project-Based Learning</i> . . . . .	918
Mark Guzdial and Jennifer Turns	
<i>Pedagogical Dimensions and the Evaluation of Multimedia Courseware for Computer Science</i> . . . . .	923
Amruth Kumar and Claire Lichack	

**Session F3G - K-12 Outreach 3: High School Courses and Camps**

*Chair: JosueNjock Libii, Fort Wayne Indiana*

<i>The Transportation and Civil Engineering (TRAC) Program: Assessing Its Success</i> . . . . .	931
Michael Patten and John M. Mason, Jr.	
<i>Engineering a High School Course</i> . . . . .	932
Scott W. Campbell, Stanley C. Kranc and Ervin L. Nevsimal	
<i>An Engineering Design Summer Camp for a Diverse Group of High School Students</i> . . . . .	939
Janet Hannan, Dale E. Calkins, Richard W. Crain, Denny C. Davis, Kenneth L. Gentili, Charlena Grimes and Michael S. Trevisan	
<i>A Pre-engineering High School Course in Engineering Design</i> . . . . .	944
Thomas Regan, Susan Schwartz and Dawn Marshall	
<i>High School Sci-Tech Project - An Insight into Engineering</i> . . . . .	949
Igor Verner and Eli Kolberg	

**Session F3H - Topics in Design 4: Process and Perspective**

*Chair: Larry G. Richards, University of Virginia*

<i>Integrating Concurrent Engineering into Undergraduate Design and Research Experiences</i> . . . . .	955
Kathleen Kitto	
<i>BENCHMARKING; A process for Teaching Design</i> . . . . .	960
Jens E. Jorgensen, James L. Fridley and John S. Lamancusa	
<i>A Course in Design for Quality</i> . . . . .	968
Jonathan Weaver	
<i>A Process Oriented Class in Engineering Design: How it Works</i> . . . . .	972
Kenneth L. Gentili, Janet Hannan, Richard W. Crain, Denny C. Davis, Michael S. Trevisan and Dale E. Calkins	
<i>A Broadened Perspective: Teaching Engineering Design in a Social Context</i> . . . . .	981
Jeffrey Newcomer	

## **Session F4A - Interaction Of Outcomes Assessment And Accreditation**

*Chair: Edwin G. Jones, Iowa State University*

<i>Interaction Of Outcomes Assessment And Accreditation - Panel</i> . . . . .	987
Edwin C. Jones, Jr.	
<i>A Planning Model For ABET Engineering Criteria 2000</i> . . . . .	988
M. Dayne Aldridge and Larry Benefield	
<i>What Was Learned - Outcomes Assessment Under Criteria 2000 At WPI</i> . . . . .	996
William W. Durgin, Lance E. Schachterle and John F. Carney, III	
<i>Afterthoughts On Criteria 2000 - A Look Back One Year Later</i> . . . . .	998
Neil M. Schmitt and Otto J. Loewer	
<i>Alumni Assessment In The ABET 2000 Environment</i> . . . . .	1002
David L. Soldan	

## **Session F4B - Professional Registration Issues for Engineering Technology**

*Chair: Kevin Taylor*

<i>Professional Registration Issues for Engineering Technology Graduates: A Range of Perspectives</i> . . . . .	1006
Kevin Taylor, Walter W. Buchanan, Richard B. England, Terrence P. O Connor and Donald W. Yates	

## **Session F4C - Teaming, Design, and Capstone Courses in Computer Science and Engineering**

*Chair: David Cordes, University of Alabama*

<i>A Multidisciplinary Capstone Teaching Model - An Integrated, Multilevel, Intradisciplinary Engineering Design Approach</i> . . . . .	1011
Anthony Ruocco and Roger S. Dixon	
<i>Failproof Team Projects In Software Engineering Courses</i> . . . . .	1015
Alfs T. Berztiss	
<i>A Team-Centered Approach In Designing Software Prototypes For Wearable Computers</i> . . . . .	1020
Alan Eliason, Marilynn Livingston and Zary Segall	
<i>Computer Security and Human Values Interact</i> . . . . .	1025
Keith W. Miller	
<i>Experiences in a Software Engineering Practicum</i> . . . . .	1030
Dale F. Oexmann	

## **Session F4D - Teaching Computing at Distance**

*Chair: Gordon Davies, The Open University - Milton Keynes (UK)*

<i>Teaching Computing at a Distance</i> . . . . .	1031
Joy Teague, Mats Daniels, Gordon Davies, Judith Gal-Ezer and Marian Petre	

## **Session F4E - Electrical and Computer Engineering Curriculum Innovations 4**

*Chair: Donna J. Brown, University of Illinois at Urbana-Champaign*

<i>Teaching Electronic Materials Science to Electrical Engineering Majors</i> . . . . .	1032
Emily Allen and Evan D.H. Green	
<i>Electrical Over-Stress Protection Of Electrical And Electronic Equipment -A New Subject At The University Of Queensland</i> . . . . .	1037
Matt Darveniza and T. K. Saha	
<i>The Need for Electrical/Electronic Graphics in Engineering and Related Curricula</i> . . . . .	1041
Eric W. Hansberry, Robert B. Angus and Thomas E. Hulbert	
<i>A Scheme for Teaching Wavelets at the Introductory Level</i> . . . . .	1046
Christian S. Gargour and Venkat Ramachandran	

<i>Use of a World Wide Web Page in an Introductory Electrical Power and Controls Course. . . . .</i>	<i>1051</i>
Timothy Skvarenina	

**Session F4F - World Wide Web Applications 2**

*Chair: Mark A. Yoder, Rose-Hulman Institute of Technology*

<i>Development of a World-Wide-Web/Multimedia Base for an Undergraduate Circuit Theory Course . . . . .</i>	<i>1056</i>
Lawrence Huelsman and Larry C. Schooley	
<i>Nifty Diode Circuits - Using the World Wide Web in an Electronics Class. . . . .</i>	<i>1060</i>
Susan M. Lord	
<i>Development of an Experimental Component For a Senior Communication Systems Course:</i>	
<i>A Web-Assisted Approach . . . . .</i>	<i>1066</i>
Bijan Mobasseri	
<i>Development and Integration of Web-based Software Tutorials for an Undergraduate Curriculum:</i>	
<i>Control Tutorials for Matlab . . . . .</i>	<i>1070</i>
Dawn Tilbury and William Messner	
<i>Web-Based Organization Of Relevant Knowledge For Web-Oriented Instruction And Learning. . . . .</i>	<i>1076</i>
William James	

**Session F4G - Professional Skills Development**

*Chair: Barbara Karanian, Wentworth Institute of Tecnology*

<i>Computer-Mediated Communication in Engineering Education . . . . .</i>	<i>1081</i>
Jeffrey G. Soper and Hyugil Kwon	
<i>Integrating Communication Skill into the Engineering Curriculum (Addressing Communication Issues from Three Directions). . . . .</i>	<i>1086</i>
Craig Gunn	
<i>Greening the Engineering Curriculum: Reflections on Possibilities . . . . .</i>	<i>1087</i>
George D. Catalano	
<i>Video Resources For Technology And Society . . . . .</i>	<i>1090</i>
David Rogers	
<i>Law, Engineering, and the Environment - Teaching Law and Engineering Students to Work Together. . . . .</i>	<i>1096</i>
JoAnn Lighty and Susan R. Poulter	

**Session F4H - First-Year Engineering Courses 1: Impact and Effectiveness**

*Chair: Bruce Carlson, Rensselaer Polytechnic Institute*

<i>Assessment of the Impact of the Freshman Engineering Courses . . . . .</i>	<i>1100</i>
Dan Budny, Goranka Bjedov and William K. LeBold	
<i>Evolution and Evaluation of an Integrated, First-Year Curriculum. . . . .</i>	<i>1107</i>
Jeffrey Froyd and Gloria Rogers	
<i>The Portfolio as a Tool to Evaluate and Assess the Effectiveness of a First-Year Integrated Engineering Curriculum. . . . .</i>	<i>1114</i>
D. Wayne Gunn, Carlos R. Corleto and Jorja L. Kimball	
<i>Integrating Design into Freshman Engineering: A Lehigh Experience . . . . .</i>	<i>1115</i>
Louis A Martin Vega, Gregory L. Tonkay, Richard Sause and Harvey G. Stenger	
<i>A New "Contact-Based" First Year Engineering Course . . . . .</i>	<i>1120</i>
Richard Porter and Hugh Fuller	

**Session S1A - Research Experiences for Undergraduates: Exemplary Programs, Sponsored by the National Science Foundation**

*Chair: Alan Russell, University of Pittsburgh*

<i>SUNFEST - Research Experience for Undergraduates</i> . . . . .	1126
Jan Van Der Spiegel, Jorge J. Santiago-Aviles and J. N. Zemel	
<i>An Evaluation of the Research Experiences for Undergraduates Program at the Georgia Institute of Technology.</i> . . . .	1132
Gary May	
<i>Summer Undergraduate Program in Engineering Research at Berkeley.</i> . . . .	1137
Sheila M. Humphreys	
<i>Research Experience for Undergraduates at the University of Pittsburgh Department of Chemical and Petroleum Engineering.</i> . . . .	1140
Mohammed Ataa, Gerald D. Holder and Robert F. Toplak	

### **Session S1B - Computer Engineering 1**

*Chair: David Soldan, Kansas State University*

<i>Incorporating Multicomputer Hardware-Software Design Concepts into the Undergraduate Curriculum through Physical Implementation</i> . . . . .	1146
Jose L. Cruz-Rivera	
<i>Experimental, Cooperative Labs in a First Course in Computer Architecture</i> . . . . .	1149
Patricia Teller	
<i>Teaching microprocessor design and test.</i> . . . .	1154
Morris Chang	
<i>Visualisation as an aid to low-level programming</i> . . . . .	1158
Mark Beaumont and David Jackson	

### **Session S1C - History in the CS Curriculum**

*Chair: John Impagliazzo, Hofstra University*

<i>History in the Computing Curriculum</i> . . . . .	1164
John Impagliazzo, Gordon Davies, John A. N. Lee and Michael R. Williams	

### **Session S1D - Multimedia 1**

*Chair: Donna J. Brown, University of Illinois at Urbana-Champaign*

<i>Interactive Learning Modules for Electrical, Computer and Systems Engineering</i> . . . . .	1165
Don Millard, William C. Jennings, Arthur Sanderson, Albert Wong, Aniket Patel, William Brubaker, Matthew Perala and Diana Slattery	
<i>Multimedia Courseware to Enhance the Classroom Experience</i> . . . . .	1171
Michelle Griffith, John S. Lamancusa, Jens E. Jorgensen and Jorge I. Velez-Arocho	
<i>Multimedia Assisted Instruction in Upper Level Engineering Courses</i> . . . . .	1175
Raj Mutharasan, Wayne Magee, Margaret Wheatley and Young Lee	
<i>Developing An Active Learning Environment With Courseware Approach.</i> . . . .	1179
Asad Azemi	

### **Session S1E - ABET 2000 Outcomes Assessment**

*Chair: Virgil Cox, Gaston College*

<i>ABET Criteria 2000: Institutional Preparation and Experience</i> . . . . .	1185
John Orr	
<i>Preparing for an Accreditation Visit Using ABET Engineering Criteria 2000</i> . . . . .	1189
James R. Rowland	
<i>Competency Matrix Assessment for First-Year Curricula in Science, Engineering, and Mathematics and ABET Criteria 2000.</i> . . . .	1190
Jeffrey Froyd	
<i>The Manufacturing Engineering Education Partnership Program Outcomes Assessment Results</i> . . . . .	1196
Lueny Morell de Ramirez, Jose L. Zayas-Castro, John S. Lamancusa and Jens E. Jorgensen	

## **Session S1F - First-Year Engineering Courses 2: Motivating Students**

*Chair: Susan Lord, University of San Diego*

- A Hands-on Approach to Green Design in an Introductory Engineering Class* .....1201  
Rebecca Lankey and Cliff I. Davidson
- Motivating Engineering Freshmen with "Buzz-Words": High-Tech Applications in Introductory Engineering Courses.* .....1206  
Shreekanth Mandayam and Satish S. Udpa
- Using Stiquito in an Introduction to Engineering Skills and Design Course* .....1212  
James J. Brickley, Jr. and James M. Conrad
- Eleg 1003 - Introduction To Electrical Engineering: An Approach To Motivate And Teach EE Freshmen* .....1215  
Dwight F. Mix and Juan Carlos Balda

## **Session S1G - Teacher Development**

*Chair: Nassir H. Sabah, American University of Beirut*

- They Already Do It: Common Practices In Primary Education That Engineering Education Should Use* .....1219  
Billy L. Crynes and David A. Crynes
- Preparation for Teaching Assistants at the University of Wisconsin, College of Engineering* .....1220  
Daniel Sebald, Sandra Courter, Donna Lewis and Michael Baker
- Mentored Teaching Assistants* .....1225  
Carol A. Wellington and James Wilson
- Reflective Teaching Practice by University Faculty: Rationale and Case Study in Computer Science.* .....1226  
Carol Kilpatrick, Lynn Hart, Deborah Najee-Ullah and Phillip Mitchem

## **Session S1H - New Criteria for Accreditation of Computer Science Programs**

*Chair: Lawrence Jones, Software Engineering Institute, Carnegie Mellon University*

- Panel Discussion: Computer Science Accreditation - Past, Present and Future* .....1231  
Keith Barker, Lawrence Jones, Doris Lidtke and Susan Conry

## **Plenary 3 - Does the Campus Have a Future: Looking Backwards, Stephen C. Ehrmann, American Association for Higher Education, sponsored by the Intel Corporation**

*Chair: Burks Oakley II, University of Illinois at Urbana-Champaign*

- Does the Campus Have a Future: Looking Backwards* .....1232  
Stephen C. Ehrmann

## **Session S2A - Deans Session - Limited Resources and the Delivery of Engineering Education: Alternatives and Suggestions**

*Chair: Umid R. Nejib, Wilkes University*

- Deans Session: Resource, Priorities, Decisions and the Delivery of Engineering Education* .....1233  
Umid R. Nejib, Billy L. Crynes, Pieter A. Frick, Gerald D. Holder, Harold R. Jacobs and Zia A. Yamayee

## **Session S2B - Computer Engineering 2**

*Chair: Pat Teller, University of Texas at El Paso*

- Design and Construction of a PC-Based Stack Machine Simulator for Undergraduate Computer Science and Engineering Courses* .....1234  
Fitratullah Khan and Sohail Anwar
- Leveraging Student Experience with an Integrated Instructional Laboratory* .....1239  
William T. Neumann and Marvin C. Woodfill

<i>An Educational Environment for Program Behaviour Analysis and Cache Memory Design</i> . . . . .	1243
Roberto Giorgi, Cosimo A. Prete and Gianpaolo Prina	
<i>On the Evaluation of a Problem Solving and Program Development Environment</i> . . . . .	1249
Fadi P. Deek, James A. McHugh, Starr Roxanne Hiltz, Naomi Rotter and Howard Kimmel	

**Session S2C - Four Innovations in Computer Science Curricula**

*Chair: Jane C. Prey, University of Virginia*

<i>Four Innovations to Undergraduate Computer Science Curricula (Panel)</i> . . . . .	1250
Jane Prey, Doug Baldwin, Margaret Reek and Jeffrey Popyack	

**Session S2D - Multimedia 2**

*Chair: J. Sherwood Charlton, University of Arkansas*

<i>Supporting Collaborative, Problem-Based Learning Through Information System Technology</i> . . . . .	1252
Glenn E. Lautenbacher, Jeffrey D. Campbell, Bryan B. Sorrows and Dirk E. Mahling	
<i>Design and Implementation of a Videoconferencing Tutorial</i> . . . . .	1257
Susan A. Mengel and Jay Parikh	
<i>Incorporating "Computer-Graded" Components Into Electronic Lessons</i> . . . . .	1263
Edward J. Mastascusa and Brian Hoyt	
<i>Multimedia Learning Tool for Mathematics</i> . . . . .	1267
Josee Bastien, Christian St-Pierre and Jean-Francois Cantin	

**Session S2E - New Paradigms in Engineering Education 1: Partnerships**

*Chair: Ronald L. Miller, Colorado School of Mines*

<i>The BETA Coalition: Regional Collaboration between 2-year and 4-year Engineering Colleges</i> . . . . .	1272
Richard Culver and Joe Biegen	
<i>Leadership and Organizational Transformation: Punishment Days or Academic Days</i> . . . . .	1275
Barbara A. Karanian	
<i>The Partnership Between the Science and Technology Wing and the School of Engineering and Applied Science: An Experiment in Living and Learning</i> . . . . .	1278
Jorge J. Santiago-Aviles, Krimo Bokreta and John C. Parker	
<i>Education Experiments in Thermodynamics</i> . . . . .	1282
Thomas A. Litzinger	

**Session S2F - Assessment and Continous Improvement of Education**

*Chair: Linda Vanasupa, California Poly. State University*

<i>Results From a Verbal Protocol Study of the Design Process</i> . . . . .	1283
Cynthia Atman, Justin Chimka and Karen M. Bursic	
<i>A Longitudinal Study Of Alternative Approaches To Engineering Education: Survey Of Assessment Results</i> . . . . .	1284
Richard M. Felder, Gary N. Felder and E. Jacquelin Dietz	
<i>Continuous Improvement of Engineering-Maths Teaching</i> . . . . .	1290
Mario Leon de la Barra, Guillermo Leon de la Barra and Ana M. Urbina	
<i>Performance Measurement and Continuous Improvement of Undergraduate Engineering Education Systems</i> . . . . .	1294
Jack McGourty, Catherine Sebastian and William Swart	

**Session S2G - Manufacturing/Industry Collaborations 2**

*Chair: Harvey Wolfe, University of Pittsburgh*

<i>Concurrent Education for Manufacturing Engineering</i> . . . . .	1302
Joel Troxler and Joseph Stanislaio	
<i>Manufacturing Design Thread in a Manufacturing Engineering Curriculum</i> . . . . .	1308
J.C. Moller, K.E. Schmahl, B.P. Bardes and K.D. Shinn	

<i>Cleveland Advanced Manufacturing and Learning Center: A Public / Private Partnership Model for Education</i> . . . . .	1312
Nan McIntyre, Fred Schoenig and Fatima Weathers	
<i>A Model for International Industry-Academic Collaboration</i> . . . . .	1317
Lawrence Korta, Vladislav Hermann and Vladislav Marik	

**Session S2H - Heroes**

*Chair: Richard Porter, North Carolina State University*

<i>The Call of Stories: Reading and Writing in the Humanities with Engineering and Science Faculty</i> . . . . .	1318
Barbara M. Olds and Ronald L. Miller	
<i>Teaching ethics as part of engineering</i> . . . . .	1323
Indira Nair	

**Session S3A - The NSF Scholars Workshop, Sponsored by the National Science Foundation**

*Chair: Susan Ambrose, Carnegie Mellon University*

<i>Preparing Engineering Faculty of the Future: The NSF Engineering Education Scholars Workshop</i> . . . . .	1324
Susan Ambrose and Cliff I. Davidson	
<i>Carnegie Mellon's 'Engineering Education Scholars Workshop' Program: Merits, Flaws and Short-term Impacts</i> . . . . .	1327
Larisa M. Naples	
<i>The Impact of the NSF Engineering Education Scholars Workshop on One New Faculty Member</i> . . . . .	1328
Kristen Sanford	
<i>NSF Scholars Workshop</i>	
Vicki Jones	
<i>Experiences in Integrating Research and Education after the NSF Engineering Scholars Workshop</i> . . . . .	1329
Shirley Dyke	

**Session S3B - Mechanics and Structures 2**

*Chair: Jack Beuth, Carnegie Mellon University*

<i>Spreadsheet Analysis For Fluid Mechanics Problems</i> . . . . .	1334
Ratan Kumar and Abdulraouf O. Al-Shantaf	
<i>An Environment for Modeling Structural Analysis Problem-solving Strategies</i> . . . . .	1338
William Blackmon and Steven J. Fenves	
<i>Interactive Computer-Based Exercises For Engineering Statics And Mechanics Of Materials</i> . . . . .	1343
Paul Steif	
<i>An Example of Project-Based Learning Using a Gantry-Crane</i> . . . . .	1344
William W. Clark and Richard Hake	
<i>Active learning methods for teaching dynamics - Development and Implementation</i> . . . . .	1349
Samuel Asokanathan	

**Session S3C - Computer Science and Engineering Curriculum 2**

*Chair: Andrew Bernat, University of Texas at El Paso*

<i>An Integrated First-Year Curriculum for Computer Science and Computer Engineering</i> . . . . .	1354
David Cordes, Allen Parrish, Brandon Dixon, Richard Borie, Jeff Jackson and Patrick Gaughan	
<i>Task-Specific Programming Languages as a First Programming Language? An Invitation to Discussion</i> . . . . .	1359
Mark Guzdial, W. Michael McCracken and Allison Elliott	
<i>Improving Software Project Management Skills Using a Software Project Simulator</i> . . . . .	1361
Derek Merrill and James Collofello	
<i>Experimental Validation of Learning Accomplishment</i> . . . . .	1367
Allen Klinger	
<i>Distance Education: Integrating Technology into Computer Science Education</i> . . . . .	1373
Marie-Michele Boulet, Serge Boudreault and Louis Gurette	

## **Session S3D - Computer Science and Engineering Undergraduate Research**

*Chair: Ann Gates, University of Texas at El Paso*

<i>Professional and Personal Development in Research Experiences for Undergraduates. . . . .</i>	<i>1378</i>
Robin Murphy and Julian Martinez	
<i>Design of a Microcomputer Platform with Real Time Operating System for Laboratory Projects . . . . .</i>	<i>1383</i>
Silvije Jovalekic, Martin Rieger and Ralph Runge	
<i>Integrating Research into the Core Curriculum - A Case Study. . . . .</i>	<i>1388</i>
Erika Rogers	
<i>Mentoring Graduate and Undergraduate Students in Microelectronic Systems Architecture Education and Research . . . . .</i>	<i>1389</i>
Joy Shetler	
<i>Adventures in Supercomputing: Scientific Exploration in an Era of Change. . . . .</i>	<i>1395</i>
Barbara G. Summers, Edna Gentry and Barb Helland	

## **Session S3E - Multimedia 3**

*Chair: Bruce C. Wheeler, University of Illinois at Urbana-Champaign*

<i>Stimulating Development of Technology Based Teaching/Learning Modules Through a Technical Elective. . . . .</i>	<i>1399</i>
John Hawley and Billy L. Crynes	
<i>Developing Reusable Multimedia Tutorials . . . . .</i>	<i>1402</i>
Curtis Carver, George Stone and Charles Powell	
<i>Experimental Multimedia-Delivered Course Formats . . . . .</i>	<i>1407</i>
David Meyer, Chris Niessen and Albert Reuther	
<i>Analysis of Daily Student Usage of an Educational Multimedia System . . . . .</i>	<i>1412</i>
Albert Reuther and David Meyer	
<i>Lessons Learned from an NSF Pilot Project on Minority Student Retention. . . . .</i>	<i>1418</i>
Fitratullah Khan	

## **Session S3F - New Paradigms in Engineering Education 2: Philosophies and Formats**

*Chair: Jeffrey E. Froyd, Rose-Hulman Institute of Technology*

<i>New Paradigms for Engineering Education. . . . .</i>	<i>1423</i>
Karl Smith and Alisha A. Waller	
<i>Creative Problem Solving Workshops for Engineering Students . . . . .</i>	<i>1428</i>
Guillermo Leon de la Barra, Mario Leon de la Barra and Ana M. Urbina	
<i>A Studio Format for Innovative Pedagogy in Circuits and Electronics . . . . .</i>	<i>1431</i>
Edward W. Maby, A. Bruce Carlson, Kenneth A. Connor, William C. Jennings and Paul M. Schoch	
<i>Pedagogy versus Reality: How Past Experiences Can Be an Effective Modeling Tool to Successfully Deploy Curricula Changes . . . . .</i>	<i>1435</i>
P.K. Imbrie, Cesar Malave and Karan Watson	
<i>Initial results teaching and learning in the Integrated Teaching and Learning Lab (ITLL) . . . . .</i>	<i>1436</i>
James P. Avery, Melinda Picket-May, Jackie Sullivan and Lawrence Carlson	

## **Session S3G - Exploring the Education Frontiers**

*Chair: Michael Pavelich, Colorado School of Mines*

<i>Exploring the Educational Frontiers . . . . .</i>	<i>1437</i>
Michael Pavelich, Alisha A. Waller and Nigel Middleton	

## **Session S3H - Development and Evaluation of Integrated Curricula**

*Chair: John C. Chen, North Carolina A&T*

<i>Follow-Up on a Freshman Engineering Course Experiment</i> . . . . .	1438
Wallace Venable, Robert McConnell and Alfred Stiller	
<i>Evaluation of a First-Year Integrated Engineering Curriculum</i> . . . . .	1441
Carlos R. Corleto, Julie Stewart and Alan Tipton	
<i>Scaling Up Arizona State University's First-Year Integrated Program in Engineering: Problems and Solutions</i> . . . . .	1442
Sarah Duerden, Meredith Green, Jeanne Garland, Bruce Doak, Joan McCarter, Ron J. Roedel, Don L. Evans and Pete Williams	
<i>Development and Implementation of an Integrated Engineering Curriculum for the Sophomore Year</i> . . . . .	1450
William Heenan and Robert A. McLauchlan	
<i>Development of a Sophomore Year Engineering Program at Texas A&amp;M University.</i> . . . . .	1456
R.B. Griffin, Louis Everett and Dimitris Lagoudas	

**Session S4A - Sloan New Faculty Fellows: Views of the Frontier, Sponsored by the Alfred P.**

**Sloan Foundation**

*Chair: Burks Oakley II, University of Illinois at Urbana-Champaign*

<i>Introducing Reality when Educating Engineers - How much is too much?</i> . . . . .	1457
F. Michael Bartlett	
<i>Challenges and Strategies for Electrical Engineering Education</i> . . . . .	1459
Jennifer T. Bernhard	
<i>Increasing Participation of Women in the Engineering Curriculum</i> . . . . .	1463
Uma Jayaram	
<i>Bridging the Gap Between Education and Practice in the Design and Development of Engineering Systems</i> . . . . .	1465
Kemper Lewis	
<i>Good Morning Cedar Rapids. Do You Have Audio? Reflections on Teaching a University Distance Education Course</i> . . . . .	1469
Russel D. Meier	
<i>A Plan to Use Cooperative Learning Lectures to Prepare Undergraduates for Research</i> . . . . .	1473
Harriet Black Nembhard	
<i>Teaching Design Through Design Competition</i> . . . . .	1477
Wayne T. Padgett	
<i>Facilitating Learning: Believe in Your Students.</i> . . . . .	1481
Melinda Picket-May	
<i>On Making Engineering Sexy</i> . . . . .	1485
Paul M. Santi	
<i>Teaching Engineers How To Analyze Problems.</i> . . . . .	1487
Julie Ann Stuart	
<i>Technology Provides Opportunities for Smaller Universities to Improve Computer Science Curriculum</i> . . . . .	1489
Carol A. Wellington	
<i>Reflections on Cooperative Learning: Look Before You Leap</i> . . . . .	1491
Sandra A. Yost	
<i>Laboratory Development in Collaboration with Industry.</i> . . . . .	1493
Peter M. Young	

**Session S4C - Computer Science and Engineering at Minority Institutions of Excellence**

*Chair: Ramon Vasquez-Espinosa, University of Puerto Rico*

<i>Computer Science and Engineering at Minority Institutions of Excellence</i> . . . . .	1495
Ramon E. Vasquez Espinosa, Andrew Bernat, Douglas Troeger, Joseph Barba and Ted Wetherbee	

**Session S4D - World Wide Web Applications 3**

*Chair: William E. Sayle, Georgia Institute of Technology*

<i>Engineering for Middle School: A Web-based Module for Learning and Designing with Simple Machines</i> . . . . .	1496
Ann McKenna and Alice Agogino	
<i>Writing Web-Based Quizzes with Mallard(TM)</i> . . . . .	1502
Donna Brown	
<i>CHARLIE: A Computer-Managed Homework, Assignment and Response, Learning and Instruction Environment</i> . . . . .	1503
D. Steven Barker	
<i>Carnegie Mellon Online: Web-Mediated Education</i> . . . . .	1510
Daniel Rehak	
<i>An interactive JAVA applet for teaching discrete-time system theory</i> . . . . .	1517
Pierre-Martin Tardif and Andre Zaccarin	

## **Session S4E - Models and Methods to Increase Student Participation**

*Chair: Joan Burtner, Mercer University*

<i>Formulation And Development Of Mathematical Models For Engineering Problems:</i>	
<i>An Experience On The Integration Of Theory And The Laboratory</i> . . . . .	1521
Marcus F. Giorgetti	
<i>Active Participation by Sophomore Students in the Design of Experiments.</i> . . . . .	1526
Robert J. Hofinger and Lloyd J. Feldman	
<i>PVC Experiments - First Rate Lab Apparatus from Plastic Plumbing, Adhesive, and Imagination</i> . . . . .	1530
Stuart Wilkinson, Stanley C. Kranc and C.J. Biver	
<i>Engineering Outreach Web Page</i> . . . . .	1534
Daniel Hess	
<i>Science and Technology in the Workplace A Decade of Experimentation with Post-Calculus H.S. Math</i> . . . . .	1537
George Rodgers and G. Jones	

## **Session S4F - Writing as a Teaching Tool**

*Chair: Ron Land, Penn State University - New Kensington*

<i>Writing as a teaching and learning tool in engineering courses</i> . . . . .	1538
Edward Wheeler, Gabriel G. Balazs and Robert L. McDonald	
<i>Training TAs to Help Students Learn Engineering Discourse</i> . . . . .	1543
Elisabeth Alford	
<i>Trendy Technology or a Learning Tool?: Using Electronic Journaling on Webnotes for Curriculum</i>	
<i>Integration in the Freshman Program in Engineering at ASU</i> . . . . .	1549
Sarah Duerden, Meredith Green, Jeanne Garland, Bruce Doak, Joan McCarter, Ron J. Roedel, Don L. Evans and Pete Williams	
<i>Teaching Freshmen to Write Technical Reports and to Navigate the Library: A Win-Win Situation</i> . . . . .	1557
Byron Gottfried, Katherine Thomes and Evan Cornell	
<i>Experiments with Writing in the Engineering Classroom.</i> . . . . .	1564
Larry Banta and Sati Maharaj-Boggs	

## **Session S4G - Education in Product Design**

*Chair: Kim Needy, University of Pittsburgh*

<i>An Educational Program in Product Realization</i> . . . . .	1568
Jens E. Jorgensen, Joseph L. Garbini, William R. Murray, Paul J. Cohen, John S. Lamancusa and Jose L. Zayas-Castro	
<i>Teaching New Product Development through a Product Engineering Approach</i> . . . . .	1573
Guangming Zhang, Pat Cunniff and Jim Dally	
<i>Design Case Studies: A Practical Approach for Teaching Machine Design</i> . . . . .	1579
Mohamed A. Seif	
<i>An Autonomous Race Car Design Competition</i> . . . . .	1583
Thomas Matthews and Richard R. Spencer	

*A Systems Engineering Design Experience for the Machine Design Curriculum* .....1588  
Steven Shooter

**Session S4H - Innovations in Manufacturing Education**

*Chair: Harvey Wolfe, University of Pittsburgh*

*An Interdisciplinary Laboratory For Teaching Manufacturing and Artificial Intelligence* .....1594  
Robert T. Van Til, Sankar Sengupta, Patrick E. Dessert, Ronald J. Srodawa and Christian C. Wagner

*Cybertronics Simulation Game For Design And Manufacturing Education* .....1595  
Arthur Sanderson, Don Millard, William C. Jennings, Tom Krawczyk, Diana Slattery and Susan W. Sanderson

*Learning Style and Instructional Methods in a Graduate Level Engineering Program  
Delivered by Video Conferencing Technology* .....1607  
Gary Rafe and John Manley

*An Applications-oriented Approach to Teaching Thermal Science* .....1613  
Mukassa E. Ssemakula, Roger W. Pryor and Mark Schumack

*Temperature Control Using a Microcontroller: An Interdisciplinary Undergraduate Engineering Design Project* .....1620  
James McDonal
